

Redshaw Substation Project

Public Consultation Feedback Form

We want to hear your views!

Scotland is producing more clean, green energy than ever before, and we need to strengthen the transmission network so we can get it to the homes, schools and businesses that need it.

The Scottish and UK Governments are committed to increasing the use of renewable energy and have targets to achieve net-zero greenhouse gas emission by 2045 in Scotland and 2050 in the UK.

To help make this happen we need to build a new substation at Redshaw in South Lanarkshire, opposite the former Red Moss hotel and close to the existing 400kV (400,000-volt) overhead transmission line, to strengthen the electricity transmission network and guarantee secure energy supplies for the future.

In June 2023 we consulted local people on our initial proposals. We have now refined our plans and we are holding a second round of public consultation, so local people can give us their views before we finalise our proposals and submit a planning application.

About You

Please provide the information requested below. Fields marked with an * are compulsory.

Title:* First name:*

Surname:*

Are you responding on behalf of an organisation: Yes No

If yes, which one:

Address:

Postcode: Telephone:

Email (if you would like to receive updates when there is project news):

Did you attend a public exhibition? Douglas 3rd March Crawfordjohn 5th March Douglas 31st March

Crawfordjohn 1st April Did not attend

Keeping your details safe

SP Energy Networks is committed to respecting your privacy and will comply with all applicable data protection and privacy laws. We're consulting you to get your views on the Redshaw Substation Project, so we may need to share your information with certain other bodies for the purposes of the consultation and for creating reports. These are: other ScottishPower Group companies; third party service providers, contractors or advisors who provide services to us; relevant planning authorities.

More information

More information about the project and the consultation process can be found in the project leaflet and our siting report, which are both available on our website at www.spenergynetworks.co.uk/pages/redshaw_400kv_substation

What we are consulting on

In this consultation, we'd like to know:

- Your views on the proposed site for Redshaw substation;
- Your views on the proposed access arrangements;
- If you have any comments about the consultation process; and
- Any other factors you would like us to consider. We would particularly like to hear your views on your local area e.g. areas you use for recreation, or local environmental features you would like us to consider.

Have your say

You can submit your comments in a number of ways

1. Complete this feedback form and return it to us by post for free (just put it in an envelope and write **FREEPOST REDSHAW SUBSTATION** on the envelope in a single line. Nothing else is needed); or
2. Complete the online version of the form on our website; or
3. Email us your comments at redshaw@communityrelations.co.uk; or
4. Call us free of charge on FREEPHONE: **0800 021 7890**

Q1. Proposed new substation at Redshaw

We are proposing to build a new substation at Redshaw, near the former Red Moss Hotel (on the opposite side of the B7078 road and next to the existing 400kV overhead transmission line).

Do you have any comments on our proposed site for the substation?

Q2. Proposed access arrangements

We propose to access the site from the B7078 road. Do you have any comments on our access proposals?

Q3: Do you have any comments about the consultation process?

Q4: Are there any other issues you would like us to consider?

Q5. How did you find out about the project and the consultation?

- Advert
- Media
- Email
- Leaflet
- Poster
- Website
- Word of mouth
- Social media
- Other (please specify)

Thank you

You can post your completed form to **FREEPOST REDSHAW SUBSTATION**, or comment online at our project website www.spenergynetworks.co.uk/pages/redshaw_400kv_substation

Following this second round of consultation we will finalise our design for the substation layout, including proposed locations for buildings, equipment, access routes and landscaping.

We plan to submit a planning application under the Town and Country Planning (Scotland) Act 1997 (as amended) to South Lanarkshire Council by May 2025. The application will be accompanied by an Environmental Impact Assessment Report, and a report summarising the consultation feedback received and how this has influenced our proposals.

At this stage, your comments are not representations to the planning authority. When we submit an application for development consent, you will be able to make formal representations at that stage.
