

Thank you

Please return the completed form to us by no later than 26th March 2025.

At this stage, your comments are not representations to the planning authority. If we do make an application for development consent in future, you will be able to make formal representations at that stage.

Q4 Please give us your views about the consultation process

YW Route Modernisation

Consultation on proposals to modernise the YW overhead line route in Loch Lomond & the Trossachs National Park.

The last day for submitting feedback is 26th March 2025.

The YX route connects to the existing YW 275kV double circuit OHL route at Dalmally, Argyll & Bute which connects to the Windyhill substation in Milngavie. The YX and YW route are owned by SP Energy Networks (SPEN).

Preliminary surveys have identified that modernisation works are required on the existing YW 275kV double circuit OHL route within the National Park. As a result, works are necessary to reduce power outages and thereby maintain electricity supply.

Solutions include:

- 1 Ground re-profiling;
- 2 Increase the tower heights at the end of the span; and/or
- 3 Replace the crossarm system.

The YW route starts in Argyll & Bute before entering the Loch Lomond and Trossachs National Park area which is an environmentally sensitive area.

The focus of this consultation event (and feedback form) is on the works proposed on the YW OHL route within the national park.

Our consultation period runs between 26th February and 26th March 2025.
We are holding one public exhibition at:
Kinlochard Village Hall, Kinlochard, Stirling FK8 3TL
on 26th February 2025 between 14.30 and 19.00.

Have your say

You can submit your comments in one of the following ways:

- 1. Complete this feedback form and return it to us by post:
YW Route Consultation,
Land and Planning, 55 Fullarton Road, Cambuslang G32 8FA
- 2. Complete the online version of this form on the website:
www.spenenergynetworks.co.uk/pages/yw_route_modernisation.aspx
- 3. Email us your comments at
ywroute@spenergynetworks.co.uk

What are we consulting on

As part of the consultation, we would like your views on any issues, suggestions or feedback you would like us to consider. We would particularly like to hear your views on your local area, for example areas you use for recreation, local environmental features you would like us to consider, and any plans you may have to build in proximity to the works.

More information about the process we have followed to identify, appraise and select the best option to modernise the route is provided on the website:
www.spenenergynetworks.co.uk/pages/yw_route_modernisation.aspx.

At this stage, your comments are not representations to the planning authority. If we do make an application for development consent in future, you will be able to make formal representations at that stage.

We will publish a report of the first round of public consultation in the coming months and give you another chance to comment on the detailed proposal as the project develops.

About you

Title

Full Name

Are you responding on behalf of an organisation? Yes ☐ No ☐

If yes, which one:

Address

Postcode Telephone

Email (if you would like to receive project updates)

Did you attend one of our public exhibitions? Yes ☐ No ☐

Keeping your details safe SP Energy Networks is committed to respecting your privacy and will comply with all applicable data protection and privacy laws. We're consulting you to get your views on the YW Route Modernisation in Loch Lomond and the Trossachs National Park so we may need to share your information with certain other bodies for the purposes of the consultation and for creating reports. These are: other ScottishPower Group companies; third party service providers, contractors or advisors who provide services to us; the Scottish Government; and relevant local planning authorities.

Q1 Have you any comments on the YW Route Modernisation project?

Q2 Any other factors you would like us to consider?

Q3 How did you find out about the project and the consultation
